UTILIZING THE GOUT.

It Has Power to Soothe the Man With a Cracked Shoe.

"Every now and then," said a man of moderate means, "something happens to remind me that I am only a novice in the art of life. "Well, when I got home I enlarged that hole in the top of my shee to the size and respectability of a gout opening, and now, when I go down in the morning on the elevated, I don't hold that foot with the broken shoe curled under the seat, back of the other ankle, as though I had a curious habit that way, but I place it boldly out in front, and I read the paper with the air of a man who is going down town with his surplus interest money to take a little

"'Hold on a minute,' called the editor. 'I want to speak to you, Howells.'

THE PROPERCEARLY STATED,

The Philedelphia Ledger, a staunch Reublican paper, but a journal which has some regard for truth and justice and is independent enough to call attention to errors and misrepresentation even at the expense of its own party, states the case clearly and pointedly in criticising President Mc-Kinley's ridiculous declaration that the message of our flag in the Philippines was one of liberty and humanity.

"The rebellion was an old story," says the Ledger, "before the United States went to the Philippines, and when our government paid Spain \$20,-000,000 for the islands it obtained an undisputed title to nothing except the impending revolution. The Filipinos had been long fighting against Spain to obtain their independence, their insignee, the United States. The truth is that the control of Philiphnes is one for conquest, to a sear title to the ing rapidly filled up with the novelislands for word; the country paid so goodly a price to Spen. The war is conducted for the purpose of perfecting that title; it is a war for acquisition, for the expansion of our territory, increase of pur commerce, for strategic c.l advantages in the far east. That which the country has paid duly for with maney the country contends, with plished daughter of Mr. and Mrs. force of arms, that it shall have. If the government has not that cause for in San Francisco Toesday to Charles south. the war it has none. Certainly it cannot be truly said that the war is for liberty and humanity, as it is in restraint of the iberty of the Filipino to and lucrative position with a mining Sydney Reeves left this morning for govern themselves; it is against bumanity, it kills, devastates and desclates the homes and conde of those who are contending for life, liberty and the pursuit of happiness, and to secure for Merklinger. themselves and their posterity the right of such a government as derives governed."

THE election of the successor to Dick Bland resulted in the choice of the Democratic candidate by an overwhelming majority. Tay district in a close one, and Bland's numerous suctesses were due more to his personal popularity then to party politics. Indeed, he was once defeated by the large amount of money sent into his district by the gold ring. It was the first election held in the United States where McKinley's Philippine policy was the leading, and, in fact, the only issue. Tas result is at least a straw that shows which way the tide of publie opinion is flowing.

THE JOURNAL is in receipt of the Indian Advance, published at the Carson Indian school. The aditorial and mechanical work will be performed chiefly by the Indian pupils at the institution. The first number presents an attractive appearance and is well filled with interesting reading matter. It will be devoted, "first, to the interest of the Indian school; second, to the Pahute, Washue and Shoshone Indians; third, to the education of all Indians."

As the JOURNAL predicted, the Democratic- State convention in Obio nominated John B. McLean of Cincinnati for Governor. The nominee is an out-and-out Bryan and silver man. He is one of the brainlest men in the country, with an indisputable record for honesty, and the Journal predicts his election as confidently as it did his nomination.

THE statement credited to ex-President Harrison in Paris, in relation to the Philippine question, are sufficiently traitorous to make him a special object of the venom of the McKinleyites. He was so bold as to declare that the idea of conquest was not in accord with American principles.

SECRETARY ROOT declares that the war will be pushed with vigor by a force of 50,000 men. But, until he assures the country that there will be a change of commanders there will be no public confidence in his program.

HOW SHALL WE

WELCOME THE BOYS?

Soma Representative People Offer Suggestions—All are Enthusiastic.

In order to feel the public pulse in the matter of the proposed reception to our soldier lads, a Journal reporter asked a number of representative citizans to express their views. They are to a man in sympathy with the cause and so expressed themselves. The JOURNAL'S suggestion that positions Opportunity for Nevada to Benefit | That Aint Swearin'--- Project to be obtained for all who might need them met with hearty concurrence,

COUNTY RECORDER SHEARER-Give them the best we have. I agree pt with your paper that the boys be put financially upon their feet again.

JOHN SUNDERLAND-Meet them with the band and escort them in triumph to the pavilion, where a bauquet should be served and speeches of welcome made. The business houses should decorate.

WM. PINNIGER-I favor showing the boys that we appreciate them. Music, processions and speeches are very well but we should do something for 'hem of material benefit.

COUNTY TREASURER BOYD-A meeting should be called, committee appointed and every person support the movement.

GENERAL G. H. TURRITTIN-We should make this not marily a local but a State ma'rer. The railroad should be requested to grant special rates to that all who wish may attend the reception,

FRANK H. NORCROSS-Reno and Nevada should anter with enthusiasm into preporations to receive the soldier boys who are serving with honor to the State.
